• Ultra fast inkjet capable of 416 42” (106.7cm) x 24” (60.9cm) full color sheets per hour
• Corrugated flat sheets up to 5/8” (15.9mm) thick X 42” (106.7cm) wide X 8’ (2.4m) length
• Print folded and glued RSCs and Die Cut sheets
• Change jobs in seconds with no plates or cleanout
• Variable Data and Personalized Printing within the same job
HOW IS THE EXCELAGRAPHIX 4200 DIFFERENT THAN OTHER INKJET PRINTERS = VERY FAST!

The Excelagraphix 4200 offers incredible speed and a small footprint at an attractive price point not found in other traditional inkjet technologies. The Excelagraphix 4200 is powered by Memjet’s revolutionary Waterfall Printhead Technology®, employing a stationary print head bar system that allows for single pass print speeds up to 416 corrugated flat sheets of 42” (106.6cm) x 24” (60.9cm) per hour.

HOW TO INTEGRATE THE EXCELAGRAPHIX 4200 INTO YOUR PRODUCTION PROCESS

Packaging companies have minimum quantity requirements to cover set up and machine down time required of conventional flexo printers. Because of this, smaller quantities and customized packaging print jobs are not cost or time efficient.

Now you can print custom full color containers with special promotions, personalized ad copy and graphics – on demand. The print speed, small foot print and price point of the Excelagraphix 4200 opens new business opportunities and markets previously unserviced by the packaging industry. The Excelagraphix 4200 offers digital, full color package printing for pennies per square foot.

The Excelagraphix 4200 is not intended to replace your current flexo press, but work along side it. Adding a high speed inkjet printer will increase your bottom line by allowing you to:

- Instantly convert digital artwork to a prototype or completed job. Decrease turn around time with direct inkjet printing.
- Profitably print lower quantity orders with ease: No plates, No setup, No make ready, No waste.
- Eliminate warehousing, labeling, and lead times associated with conventional preprinted packaging.
- Accept new business or same day orders without affecting current production on your flexo press.
- Say YES to small, complex, or rush jobs to attract new customers and retain existing accounts.
How can a packaging company benefit from the Excelagraphix 4200?

Your salesman signs a contract with a huge new client. This new client needs multiple rush jobs with varying quantities, graphics, colors, sizes and data. Considering the necessary time to create plates and press set up, off-loading a portion of these jobs to the Excelagraphix 4200 is the most efficient, profitable and fastest way to meet the customer’s needs.

**Flexo Workflow**
- Receive artwork
- Create printing plates
- Load printing plates and ink
- Cleanout/change plates/load new ink
- 10,000 pc 2 color RSC order
- 20,000 pc 1 color RSC order

**Excelagraphix 4200 Workflow**
- Receive artwork into iQueue software
- Feed corrugated sheets/boxes for prototypes or production jobs
- 100 Large RSC w/full color logos
- 100 Small RSC w/full color logos
- 400 Medium RSC w/full color logos
- 25 Die cut pizza boxes
- 100 Trays w/full color
- 50 Tuck end boxes w/barcodes
- 50 Die cut bins w/unique serial numbers on each
- 50 Isle headers w/variable store specific data
- 100 Product boxes w/variable addresses
- 10 Various customer samples

Keep your Flexo Press online with long runs while the Excelagraphix 4200 prints short runs, prototypes or lower volume production. This decreases downtime, increases production, efficiency and profits!

By using the Excelagraphix 4200 and your current Flexo Presses you can easily deliver all jobs at the end of a single workday.
## PRINTING CAPABILITIES

<table>
<thead>
<tr>
<th>Feature</th>
<th>Specification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Print method</td>
<td>5 Memjet drop on demand thermal inkjet print heads</td>
</tr>
<tr>
<td>Print width</td>
<td>42&quot; (106.7cm)</td>
</tr>
<tr>
<td>Ink colors</td>
<td>Five channels per Printhead: CMYKK (both K are identical)</td>
</tr>
<tr>
<td>Print resolution</td>
<td>1600 dpi x 1600 dpi or 1600 dpi x 800 dpi</td>
</tr>
<tr>
<td>Print speed</td>
<td>Up to 416 42&quot; (106.7cm) wide x 24&quot; (60.9cm) long sheets per hour</td>
</tr>
<tr>
<td>Production speed example</td>
<td>42&quot; (106.7cm) length sheet 330 per hour or 24&quot; (60.9cm) length sheet 416 per hour</td>
