T3
automatic tray former for cardboard trays with column
TECO T3 - Automatic tray former for cardboard trays with columns

The TECO T3 automatic tray former folds and glues cardboard trays and allows the production of a wide range of box styles and sizes. Designed to work with standard cardboard sheet, the machine features high-speed, high-precision, and energy-efficient operation. The T3 tray former can be used in a wide range of applications, from small-scale production to large-scale manufacturing. The machine is modular and can be customized to meet specific requirements.
